March 23, 2012

Susan Bucher  
Supervisor of Elections  
240 S. Military Trail  
West Palm Beach FL 33414

Subject: Wellington Election Statement

The incorrect reporting of vote totals which occurred in the Wellington Election was caused by a mismatch between the software which generates the paper ballot and the central tally system. This synchronization difficulty is a shortcoming of the version of software currently being used by Palm Beach County and that shortcoming has been addressed in a subsequent version of the software. These enhancements help to prevent such an anomaly from occurring in the future. Dominion is in the process of providing this newer version to Palm Beach County.
